

10 oz. 20 mil Cream Flame-Retardant Polyethylene Landfill Cover

Landfill Cover • Alternative Daily Cover Application

Purpose and scope

This DeBrovys draft technical sales sheet summarizes the material identity and catalog information verified for a landfill-cover and alternative-daily-cover material. It is not an engineered design document, warranty, certificate of analysis, or substitute for site-specific specifications, permit requirements, or supplier documentation.

Material identification

Base material	Flame-retardant polyethylene
Nominal weight	10 oz. per sq. yd.
Nominal thickness	20 mil
Color / finish	Cream
SKU family	60-TLF-20MIL(FR)PE
Catalog availability	Takes one to ten days to manufacture

Verified record and selection notes

- Current source: Current active product record; replaces legacy category reference of 8.9 oz. with current product-record value of 10 oz.
- Matching product reference: [View matching DeBrovys product page](#)
- Use the finished coverage dimensions, planned deployment method, webbing style, edge loading, and attachment method to finalize the cover configuration.
- Discuss custom fabrication, joined or oversized panels, and heat-sealed panel requirements with DeBrovys when applicable.

Category-level configuration options

Reinforcement styles

Style A — webbing across hems and seams in both directions.

Style B — webbing across all seams and hems.

Style C — vertical webbing at seams and hems plus horizontal webbing 6 feet from the hem.

Custom options

Double outer-edge webbing • cable pockets • cargo webbing • D-rings • cable-in or chain-in pockets • custom finished sizes.
