## Heavy-Duty Dump Truck & Trailer Tarping System

### Description

The Bullet™ is designed to cover dump bodies up to 23 feet long. Available with either straight or 30° angled arms of anodized aluminum that will never rust! The tarp moves smoothly on an extruded aluminum roller bar, powered by the Dura-built™ 12V direct-drive electric motor with rotary switch. Optional upgrades include 40-amp Durabuilt™ rocker switch kit with solenoid, wind deflectors, pivot arm rests and spring trap and tarp trap hold-downs.

*Distribution and Service on Six Continents!*

### Features

**2-Piece Adjustable Arms** The two piece arms of the Bullet™ make installation easy. Adjusting the arm lengths during installation lends itself to a proper fit and better operation.

**Huge Tarp Selection** When pricing your Bullet™ system, you will need to order your choice of tarp and add that to the price. Choose from heavy-duty mesh, multicolored PVC mesh, 18-oz. vinyl or asphalt lumite. Asphalt lumite is water resistant and not PVC coated, so it's able to handle much higher heat levels than vinyl. In addition to lumite, other asphalt-friendly selections are also available, including RFL, urethane-coated airbag, 22-oz. vinyl and Donoprene. More tarp options can be selected, such as non-standard colors, side flaps, reinforced pockets or hems, webbing, boxed corners, stenciling, grommets and D-rings.

**3-Year Motor Warranty** The dependable Durabuilt™ 12V direct-drive electric motor has an in-cab rotary switch for operator convenience. The motor comes with a three-year full replacement warranty.

**Optional Upgrades** Optional upgrades include 40-amp Durabuilt™ rocker switch kit with solenoid, wind deflectors, pivot arm rests and spring trap and tarp trap hold-downs.

**Load Security** Five springs per side ensure that your load stays safe and secure even at high-way speeds. The springs will secure bodies up to 23 feet long.
