WASTE DIVISION

# HY-TOWER™

## The Waste Industry's Number One Armless Tarper

### Description

The Hy-Tower™ semi-automatic roll-off tarp system covers containers from 15 to 40 cubic yards, with a gantry that raises either 12 or 15 feet above the truck frame and then tucks compactly behind the cab during transport. The lightweight, easy-to-handle, extra-wide 100-inch tarp allows you to quickly contain heaping loads from the safety of the ground. You just raise the tower, deploy and secure the tarp, lower the tower and hit the road!

Hydraulics for the system are self-contained and require minimal maintenance, and care is especially easy with no pivot arms to bend or break. The Hy-Tower™ comes preassembled for easy installation and weighs only 450 pounds installed! Durable and built to last, the springs are backed by a lifetime warranty. Kits contain hardware only. The knitted mesh tarps, with or without flaps, will fit any of the HyTower™ kits.
